Tuesday, Movember 1, 1870. Dr. Helmcken Backing Down from the Terms of Confederation.

Verily, Dr. Helmeken is a remarkable man, indeed. In the fall of 1868, he was the champion of the anti-Confederates and Annexationists. He was elected on the cry—"We'll never get Annexation, if we don't vote against Confederation." In 1870, he shocked the shocked the consistency.—

British Columbia," meant only the Mainland, as Dr. Helmeken has for asserting that it only means Vancouver Island. Hence, the sooner any such limsy interpretation is set aside, and plain and definite language be used, to locate the terminus at Esquimalt and Victoria, the better. everybody's notion of consistency,-and particularly those who elected him, by accepting an appointment as a Delegate to Canada, to negotiate terms of Union with that country. Last THEATRE ROYAL. week, he issued his address to the electors, endorsing the Terms of Union that he had aided in negotiating. At the public meeting on Saturday evening he said that he "would take the Terms as they stand—having agreed to them, he would stand by them." To-day, he publishes a letter, in which he is pre-pared to alter the Terms, by amending hem as follows :--

"If, after the necessary surveys for the purpose of the Railway shall have been made, it be found impracticable to carry it to, and make it terminate in Vancouver Island, then, in that case, a Railway shall be built between Victoria and Esquimalt and Nanaimo, upon the same terms and conditions as the other

portion of the Railway." This, then, is the last change, and a very sudden and important change, in the views of that very remarkable gentleman. The Railway Meeting evidently had its effect on him. Now, we have no object in show-ing how changeable Dr. Helmcken is, except to put the city electors on their guard against trusting him as their representative, unless he will distinctly and unequivocally pledge himself to vote for the Terms, on the condition that the Terminus of the Railway shall be fixed here as one of the conditions of Confederation. A public man who can one year oppose Confederation, and the next be an enthusiastic supporter of it; a public man who en Saturday denounces all who attempt to amend the Terms, so as to fix the Terminus here, and on the next Tuesday agrees and even proposes an amendment to the Terms, cannot be considered as one on whose judgment our citizens can place full reliance. Even if honesty of intentions be conceded, yet honesty of purpose is quite a distinct thing from that sort of sound judgment on which our citizens may rely as a security against loss. It is our property—the earnings of years—the accumulations of a lifetime, amid many privations—that we would entrust to the management of Dr. Helmoken in the Legislative Council, in case he were elected for this city. Groceries, Provisions, Hence, we require a member who will represent our interests; and not merely his own views. Now, we want the terminus of the railway fixed here. It is our intertst to have it here. We know it. We have no doubt about it. We don't require a corps of engineers to convince anyone of that matter. But, what does Dr. Helmcken propose to do? Does he not say that if engineers—surveyors—find it impracticable to come to Vancqueer Island,—then we must have the Victoria-Nanaimo Railway built? Let us suppose that it is found practicable to come to Vancouver Island; yet Esquimalt and Victoria are not Vancouver Island. If practicable the railway may go to Barclay Sound, but neither of these places are Victoria. It is in this city where we want a terminus, even i there be forty termini built elsewhere on the Island or on the Mainland. Hence, we repeat that Victorians don't require a staff of surveyors to inform them as to what they want; nor a city member who will be content with the railway, if it comes to Vancouver Island, though it may not make Victoria the terminus of railway to be mentioned in the terms, and that terminus here, we want our city members to represent our views; and do nothing less. Again, if Dr. Helmeken had said that if engineers fined it to be impracticable to bring the railway here via Johnson Straits, then he would insist on the Yictoria and Nanaimo railway being, built as a link of the Trans-Continental Railway, we could common sense amendment to the terms, that would meet the views of the time of commencement. No previous like a common sense amendment to the terms, that would meet the views of the city electors—something that every one could comparate and Ratio had a common sense amendment to the time of commencement. The depth to be measured on the square.

4. Non-Subscribers wishing to compete with one most fro we repeat that Victorians don't require s the city electors—something that every one could comprehend. But, this he does not propose to do, yet we have no interest whatever in a railway that don't come here. We fear it; and we should allow no one to jeopardize our interests by any such amendment as that pro-posed by Dr. Helmcken. We believe Dr. Helmcken's intentions respecting the city to be honest and loyal in this matter.
We are even prepared to give him a
liberal support, if he will pledge himself distinctly and unequivocally that he will only vote for an amendment to the terms that the railway shall come to Esquimalt via Johnson Straits, if engineers declare it to be practicable, and if they do not, to rime of C extend a line from this city to Nana-PUNCTUALLY.

The Government Grants for the purpose non sectarian Education should be largely increased; and the system placed on a more substantial and liberal basis.

Increased representation and Responsible Government I will strenously advocate.

I am of opinion that the Canadian Tariff should be at once accepted as being the means of lightening individual Taxation and tending to increase our commerce. To the Electors of the City of TO THE ELECTORS OF THE CITY OF GENTLEMEN :- An idea of duty prompts me

> The proposition to make British Columbia in future an integral portion of the Dominion of Canada has been reduced to a series of definite "Terms of Union." Upon the electors now rests the grave responsibility of de-terming whether those terms are suitable, sufficient, and calculated to promote the pro-gress and prosperity of British Golumbia hereafter, and whether they will become partners in the weal or woe of Canada, and

Future. If the choice of a Tariff be, as at present, mere election either of that of Canada or that of British Columbia as either exists, I must, in order to coincide with you, choose that of Canada; but, at the same time, I fear that when the Canadian Tariff and Excise Law when the Canadian Tarin and Excise Law are put in force much injury will accrue there from to our farming, brewing and other producing interests. The inducements to settle upon, clear and cultivate our lands will, at least, be diminished, and the benefits arising from the Union will neither be so great nor so pure as they ought and might be made, and probably are by many expected to

There may, however, be even yet an atom disposed of, certain amendments of the Tariff will be allowed; in that case I ask for discretionary power to use that or other concession for the purpose of preventing, as far as possible, the injury likely to accrue to our farming and some industrial interests from the forthcoming revolution, and of making the projected public works the means of the variable of the concession of the state of the concession for the purpose of preventing, as far as possible, the injury likely to accrue to our farming and some industrial interests from the forthcoming revolution, and of making the projected public works the means of the training and some industrial interests from the forthcoming revolution, and of making the projected public works the means of the Tariff ed, heat I mile, catch weights. consequences of Confederation. The determination of the site for the Terminus of the Canadian Pacific Railroad must depend very much upon the objects the Canadian Government have in view in undertaking such a gigantic work ; the cost and practica bility of the various routes, the advantages of each for the purpose required. It is probable that the main object may be the acquisition of an easy, short and expeditions route to China and the East through British Territory,

for the purpose, among others, of British and European commerce; Secondly, for domestic uses, such as the settlement of the country, rapidity of communication, defence and various others. For the purposes of commerce the Railway must have its terminus at some good seaport converient to the Pacific Ocean and superior to that of its rival—the North Pacific Railway. Vancouver Island possesses such sea ports and is in reality the "seaboard of British Columbia." The precise locality of the Terminus, however, must in reality be settled after the scientific survey shall have been completed. The subject is of much importance and naturally causes considerable interest and concern; but it is hoped the friends of Union will take care to see Vancouver Island protected in this particular Bonded Wines, Brandies, etc., and thus prevent it becoming a cause of hostility or hindrance to (o stederation.

It is but natural that unavoidable, impending and radical organic changes, the effect of which upon units cannot be clearly forseen, should create in many a feeling of dread and distrust of the future. That the effect of Confederation will be advantageous to some persons, places and interests, and inimical and but taking the country generally, its present simultaneously into consideration, Union seems calculated to be beneficial to the country, considered as a whole, if not immediately, at least in the not distant future. Responsible Government is the only system which can satisfy a free people; and I shall support its immediate adoption.

As to the very important and interesting question of education, I believe it to be the duty, as well as the interest of the State to provide for the education of its children, and that non-sectarian schools adequate to the purpose ought to be established and main-tained, and an efficient staff of teachers paid, by the Government out of the general revenue of the country.

The Vossische Zeitung describes the King of New Zealand.—We see by a late New of Grave of the night of the battle Prussia as sitting on the night of the battle He had exposed himself for ten hours, with manded by the Duke of Edinburgh, was at his suite, to a hot fire from the enemy, and Wellington, New Zealand, on the 3d of September. A grand dinner and ball were given the French were making desperate efforts to break the Prussian lines. A ladder from a peasant's cart had been converted into a seat for him, and by his side were Prince Charles (the father), the Grand Duke of Mecklenburg, Counts Bismarck, Roon and Donhoff. Roon had taken off his helmet, and, contrary to his custom, was wearing a field cap. The King had bis helmet on. Bismarck was trying to read French letters, though very likely thinking of something quite different. All were very silent, and felt with the King that about this time the decisive tidings must arrive. Presently Moltke, much heated, rode up to the King; "Your Mejesty, we have conquer-ed. The enemy is driven from all their posi-tions." A vigorous hurran from the bystanders was the response. Refreshments now thought off. A sutler standing not far off was called to fill their flasks. The King that Mr. Washburne, our Minister to France, drank out of a broken tulip-glass, while Bismarck complacently munched a piece of amunion bread. MAGIC SOAP.

Directions for Using Robinson's Magic Soap for doing a Large Family Washing in Two Hours, of Five or Six Dozen Pieces.

Hours, of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, sind put one-half of it into your boiler with sufficient water to cover well your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just come to a boil; then pour out clothes and water into a tub and let them soak twenty or shi ty minutes, stirring them round in the tub occasionally to loosen the dirt. Such articles as collars, wristhands or any ar icle very dirty, should be rubbed through the hands a little while soaking in order to thoroughly loosen the dirt before tolling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water; and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

white.

3. For your colored and woollen clothes use the same water you soaked and boil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your bands while soaking, if very dirty. Then rines in clear water, warm a your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this Soap into two gallons water, and let beil until thoroughly dissalved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house purposes.
